

1. Revenue Performance & ContributionBusiness Intent

Where is the revenue coming from, and which segments contribute the most?Queries Included

- **Revenue by Gender** (Q1: Total revenue generated by male vs. female customers)
- **Revenue Contribution by Age Group** (Q10: Revenue contribution of each age group)
- **Shipping Type vs Spend** (Q4: Average purchase amount for Standard vs Express shipping)
- **Revenue Concentration by Customer Tier (NEW)** (Q11: How much revenue is generated by top-spending customers vs the rest?)

Section Framing

This section evaluates how revenue is distributed across demographics, fulfillment choices, and customer concentration to identify high-impact revenue drivers and potential dependency risks.-----

2. Customer Value & Loyalty AnalysisBusiness Intent

Which customers are worth retaining, and how does loyalty translate into long-term value?Queries Included

- **Subscribers vs Non-Subscribers Spend Comparison** (Q5: Average spend and total revenue by subscription status)
- **Repeat Buyers and Subscription Likelihood** (Q9: Are repeat buyers more likely to subscribe?)
- **Customer Lifecycle Segmentation** (Q7: Segment customers into New, Returning, and Loyal based on previous purchases)
- **Revenue per Customer Segment (NEW)** (Q12: Which lifecycle segment generates the highest revenue per customer?)
- **Purchase Depth vs Spend (NEW)** (Q13: How does spending change as customers make more repeat purchases?)

Section Framing

This section focuses on identifying high-value customer segments, understanding loyalty progression, and determining where retention efforts can deliver the greatest long-term returns.-----

3. Promotion & Discount EffectivenessBusiness Intent

Are discounts driving meaningful value, or primarily increasing short-term volume?Queries Included

- **High-Spending Customers Who Used Discounts** (Q2: Discount users who still spent above the average purchase amount)

- **Products with Highest Discount Dependency** (Q6: Products with the highest percentage of discounted purchases)
- **Customer Value vs Discount Usage (NEW)** (Q14: Do discount users have lower or higher purchase history compared to non-discount users?)
- **Discount Dependency by Customer Segment (NEW)** (Q15: Which customer lifecycle segments rely most on discounts?)

Section Framing

This analysis evaluates whether promotional strategies attract high-value customers or create discount dependency, highlighting trade-offs between short-term sales uplift and long-term customer value.

Note: This is where strategic risk is discussed, not just performance.-----

4. Product Performance & Customer PreferenceBusiness Intent

Which products and categories perform best, and what drives their performance?Queries Included

- **Top Products by Review Rating** (Q3: Products with the highest average review ratings)
- **Top 3 Most Purchased Products per Category** (Q8: Most frequently purchased products within each category)
- **Ratings vs Demand Comparison (NEW)** (Q16: Are the highest-rated products also the most purchased?)
- **Pricing Power by Rating (NEW)** (Q17: Do higher-rated products command higher average purchase amounts?)

Section Framing

This section contrasts customer preference signals (ratings) with actual purchasing behavior (volume and spend) to identify products with strong positioning or untapped potential.-----

5. Strategic Customer Prioritization (Summary Layer)Business Intent

If the business can focus on only a limited number of levers, which ones matter most?Inputs Reused From

- Revenue concentration analysis
- Customer lifecycle and loyalty analysis
- Discount effectiveness and dependency
- Product performance insights

Section Framing

Insights from the previous analyses were synthesized to identify high-impact customer segments, products, and promotional strategies that should be prioritized for retention, targeted incentives, and strategic investment.

Note: No new SQL. This is where analysis becomes decision-making.
